	Urgent	Not Urgent
Important	**Do - (Your MVP)** ● Create a soccer game with date, location, and player limit ● Add players and track confirmed vs. non-confirmed ● Show confirmed player roster and available spots	**Schedule - (For V2.0+)** ● Save and reload games from a file ● Support sports other than soccer ● Make desktop app rather than running it in terminal ● Make balanced teams based on positions & skill level
Not Important	**Delegate - (Use a library)** ● Java File IO for saving games ● Using Java's date/time library ● Make random teams using Java's collection utilities (Collections.shuffle)	**Delete - (Cut it)** ● Player accounts ● Phone notifications ● Online RSVPs ● Web app that makes it available outside of the organizers computer
